

If the Euro 2004 tournament were a video game

 devblogs.microsoft.com/oldnewthing/20041025-00

October 25, 2004

Raymond Chen

If the Euro 2004 tournament were a video game, it might have looked like this. View recreations of the tournament highlights, and since the graphics are computer-generated, you can select among multiple camera angles, embody a specific player, or see what it's like to be the ball itself!

(Via [MetaFilter](#).)
