

The three things you need to know about tsunamis

 devblogs.microsoft.com/oldnewthing/20070530-01

May 30, 2007

Raymond Chen

One of my friends is involved with Science on Tap, a free, informal monthly get-together in the Seattle area covering science topics for the general public. ([Recent coverage in the Seattle-PI.](#)) The topic for July 30th is “The three things you need to know about tsunamis”, and a title like that pretty much sells itself.
