I have a strange tendency to <u>misread newspaper headlines</u>. This week, I read the headline <u>*Rogan Sets 200 Back World Record*</u>, and I thought, "There's a world record for running 200 meters backward?" Well, <u>actually there is</u>, but this article was actually about the 200 meter backstroke (swimming).

Once I figured that out, I was not confused by the next headline: *Lochte Sets 100 IM World <u>Record</u>.*
