Sharktopus: *Half-shark. Half-octopus. All-killer*. I am not making that up. The Web site is sharktopusmovie.com, presumably because sharktopus.com was already taken. I am not making that up. I guess they wanted to ride the coattails of *Megashark vs. Giant Octopus?* Even more disturbing discovery: *Megashark vs. Giant Octopus* has a sequel: *Megashark versus Crocosaurus*.

One of my colleagues says that he's going to wait for the sequel: *Sharktopuses on a Plane*.
