Raymond Chen

Over in the product engineering groups, we aren't often exposed to the jargon employed by our Facilities group. But once in a while, it leaks through and then we get to puzzle it out.

## Emergency Electrical Outage and Restoral

Due to a transformer failure, power to building NNN was shut down from 6:00am to 6:30am on MMMM-DD.

Occupants may need to re-energize their office equipment.

From what we can gather, *re-energize* is just a fancy way of saying *turn on*.

**Bonus jargon:** Restoral.
