

Inadvertently designing a horrible time and date picker

 devblogs.microsoft.com/oldnewthing/20180305-00

March 5, 2018

Raymond Chen

Perhaps inspired by the tongue-in-cheek competition to design the worst volume control, an internal tool here at Microsoft managed to create the worst time and date picker:

Prev

January 2017

Next

S	M	T	W	T	F	S
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

Time 04:29

Hour

Minute

Okay, the date-picking part isn't so bad (aside from the fact that everything is varying shades of gray), but using sliders to select the time?
