

My strategy for playing Settlers of Catan

 devblogs.microsoft.com/oldnewthing/20201111-01

November 11, 2020

Raymond Chen

My general strategy for playing *Settlers of Catan* is to take my unused road, settlement, and city tokens and try to build a robot out of them.

I have yet to win with this strategy, but I like it nevertheless.

(I don't buy many development cards because I haven't figured out how to use them to build a robot.)
