WEBINAR

Visual Investigations

Speed up your IR, Forensic Analysis and Hunting
on July 15th, 2021 at 15:00 UTC with

Mathieu Gaucheler
Maltego

Vicente Diaz
VirusTotal

Ariel Jungheit
Kaspersky

  

Presented by

Mathieu Gaucheler, Maltego, Ariel Jungheit, Kaspersky & Vicente Diaz, VirusTotal

About this talk

With the rising number and sophistication of cyber-attacks faced by organizations, modern CISO's are ramping up internal processes and infrastructure to not only prevent incidents, but also remediate them faster to reduce the harmful impact of attacks on the organization. Visual investigations can save valuable time by allowing efficient evaluation of incidents as well as faster investigation of anomalies and evidence left by threat actors in your networks. Watch this webinar to learn: - The value of visual investigations. - To conduct investigations with real world examples leveraging VT Graph and Maltego. - Advanced techniques in malware investigations.
